

Community Asset Mapping Tool

Consider the resources needs to support the success of your project. What existing community resources can be leveraged?

Existing Partnerships

Organization

Resources/Services Provider

Additional Considerations

- What are the current workforce needs of your community? Will they change over time? What partnerships can address that?
- What obstacles to education, training, and employment do survivors face? What community resources address these areas?
- Are there partners who are not currently at the table but should be brought in now or at later stages of the project?
- What are two early wins your partnership can tackle?
