Statement by Futures Without Violence on Larry Baer, CEO of the San Francisco Giants

We agree with the statement by San Francisco Giants President and CEO Larry Baer that his recent conduct during a videotaped altercation with his wife, Pam Baer, was unacceptable. Larry Baer's actions were serious and consequential, and he must be held accountable for actions that do not meet the standards expected of a leader - or are required of him as a member of the baseball community, under MLB policy.

Since 2014, Futures Without Violence has partnered with the Major League Baseball - Major League Baseball Players Association Joint Policy Committee to provide educational training and resources to major league players about the prevention of domestic and sexual violence, sexual assault, and child abuse.

We will await the outcome of the MLB investigation before commenting further.
