

Our Values

Together,
*building a stronger
system of care.*

Introducing Provide's Technical Assistance Library

Our Technical Assistance Library is available to support healthcare and social service professionals in providing quality referrals for unintended pregnancy and abortion. Examples of what you will find:

- Sample policies to support pregnancy options referrals
- Pregnancy options counseling scripts and guides
- Sample client and patient forms
- Sample interview questions for prospective employees
- Tools for training employees to make referrals
- Tips for recognizing referral partners on your website
- Posters and brochures that support pregnancy options referrals
- Templates for conducting reviews of your organization's referral practices

How to access our Technical Assistance Library

Visit www.providecare.org/member and enter the following login credentials:

Username: ProvideCare

Password: STARreferrals

In addition to the resources in our library, Provide staff are available to discuss how your agency can better serve the needs of clients and patients experiencing unintended pregnancy.

Provide, Inc. is a nonprofit that works in partnership with health and social service providers to build a health system that is equipped to respond to patient and client needs related to unintended pregnancy and abortion. We envision a healthcare system that cares for the whole person, meets those needs with dignity and respect, and where workers have the tools and support to offer the best care to their clients.
