

Community Asset Mapping Tool

Consider the resources needs to support the success of your project. What existing community resources can be leveraged?

Promoting Employment Opportunities
for Survivors of Trafficking (POEST)
PRE-WORK ASSIGNMENT #1

Existing Partnerships

Potential Partnerships

Organization

Resources/Services Provider

Additional Considerations

- What are the current economic needs of survivors in your program? Will they change over time? What can be supported internally? Where can partnerships help?
- What obstacles to education, training, and employment do survivors face? What community resources address these areas?
- Are there partners who are not currently at the table but should be?
