

Lessons Learned from Project Catalyst: State/Territory-Wide Transformation on Health, Intimate Partner Violence, and Human Trafficking

Date: Tuesday, February 22, 2022

Time: 10am-11am PT/11am-12pm MT/12-1pm CT/1-2pm ET

Registration Link: https://us02web.zoom.us/webinar/register/WN_mudCAbxQS4aLIYR3fe0WWA

Spanish and ASL interpretation and closed captioning will be provided.

Description: Please join us for a webinar to learn more about [Project Catalyst: State/Territory-Wide Transformation on Health, Intimate Partner Violence, and Human Trafficking](#), a four year national initiative supported by several U.S. Department of Health and Human Services agencies. Over the course of 4 years, Futures Without Violence (FUTURES) worked with leadership teams, consisting of state/territory departments of health, DV coalitions, and Primary Care Associations in 10 U.S. states and territories. These leadership teams worked to promote policy and systems changes that supported an integrated and improved response to intimate partner violence (IPV) and human trafficking (HT) in health centers and domestic violence programs. They offered training and technical assistance to five health centers and domestic violence programs, and implemented a vision and strategy to promote policies and practices that support the ongoing integration of the IPV/HT response into health care delivery state/territory-wide. On this webinar, FUTURES will be joined by several Project Catalyst leaders, including from Arkansas, Minnesota, and Ohio, who will share the incredible impact this initiative had in their states, and how this work is a springboard for continued state-wide programming to support the health needs of survivors in innovative ways. Join us to learn more about the initiative and its successes, and how it can be implemented state/territory-wide and in health centers and DV programs locally. We will offer resources including training and evaluation tools available from FUTURES and the Children's Hospital of Pittsburgh.

Learning Objectives: *At the end of this training, participants in attendance will be able to:*

1. List the goals of Project Catalyst: State/Territory-Wide Transformation on Health, Intimate Partner Violence, and Human Trafficking.
2. Describe the state/territory-level and program-level policy and systems changes for DV programs and health centers accomplished during the three phases of Project Catalyst.
3. Implement Project Catalyst in new states/territories by using resources and evaluation tools from FUTURES and the Children's Hospital of Pittsburgh to integrate responses for IPV/HT into health centers and partnering programs.

Questions? Please contact: Anisa Ali aali@futureswithoutviolence.org

Speakers:

- Anisa Ali, MA, Program Manager, Futures Without Violence
- Brandy Dailey, MPA, Community Response Facilitator, Arkansas Coalition Against DV
- Anna Marjavi, Director of Health Partners on IPV + Exploitation, Futures Without Violence
- Elizabeth Miller, MD, PhD, Chief of the Division of Adolescent and Young Adult Medicine, Children's Hospital of Pittsburgh of UPMC
- Meggie Royer, Youth and Prevention Program Manager, Violence Free Minnesota
- Sarah Scott, MPH Candidate, Research Assistant, UPMC Department of Adolescent & Young Adult Medicine
- Lindsay Weaver, MPH, Integrated Health Program Coordinator, Ohio Association of Community Health Centers

Support for Project Catalyst was provided by U.S. DHHS agencies, Administration for Children and Families' Family & Youth Services Bureau, and the Health Resources and Services Administration's Office of Women's Health and the Bureau of Primary Health Care.
